Education

- **Arapahoe Community College** — Lakewood, CO
  Associate of Science in Computer Science — *Sep 2026 – Present*

Experience

Software Developer — Feb 2024 – Present
iSolvRisk Inc — *Remote*

- Engineered a responsive business homepage for an enterprise risk-management platform using React 19, TypeScript, and CSS Modules, building over 20 modular components to streamline maintenance and unify cross-device layouts.
- Configured Vite for route-level code splitting and dynamic bundle loading, implementing a custom retry mechanism to gracefully recover from stale asset references after deployments.
- Streamlined asset delivery using SVGR, Sharp, and WebP compression, decreasing overall image payload size by over 60% to improve load times.
- Developed interactive event showcases and lead generation workflows featuring form validation, stateful filtering hooks, and analytics tracking to drive inbound inquiries.
- Built a custom Node.js deployment script utilizing concurrent SFTP streams, asset diffing, and cleanup routines to automate releases and cut deployment times down to under 30 seconds.
- Conducted hands-on quality assurance and functional testing for platform updates, catching edge-case regressions to ensure high reliability before production releases.
- Designed backend architecture and PostgreSQL database integrations using Node.js to support core application logic and secure data fetching.

Assistant Culinary Manager — Aug 2025 – Present
Bonefish Grill — *Lakewood, CO*

- Supervised daily restaurant workflows and cross-functional team execution, upholding high service standards and operational efficiency during high-volume shifts.
- Managed station organization and labor allocation across a 15+ person staff to enhance overall throughput and minimize table delivery bottlenecks.
- Enforced standardized operating procedures and food safety compliance to maintain consistent quality control across all services.

Assistant Kitchen Manager — Oct 2018 – Oct 2022
Charbar 7 — *Charlotte, NC*

- Directed day-to-day kitchen operations, staff scheduling, and inventory management, significantly reducing material waste and optimizing resource allocation during peak hours.

Projects

Reesa.ink – Artist Portfolio | *Next.js, TypeScript, Tailwind CSS, Supabase* — June 2025 – Present

- Architected and launched a custom client portfolio and booking application for an independent tattoo artist utilizing Next.js (App Router), TypeScript, and Tailwind CSS.
- Engineered an automated client inquiry pipeline using a Next.js server-side route handler and the Resend API, securely processing form inputs and image attachments into structured notification emails.
- Created a dynamic image gallery with a custom lightbox modal, leveraging Next.js image optimization and responsive layouts to maintain high visual fidelity while reducing layout shift.
- Integrated Framer Motion to deliver fluid micro-interactions, including scroll-aware navigation states, animated entry transitions, and interactive FAQ components.

Technical Skills

Languages: JavaScript, TypeScript, SQL, HTML, CSS
Frameworks: React, Next.js, Node.js, Tailwind CSS
Databases: PostgreSQL, Supabase
Developer Tools: Git, GitHub, Docker, Vite, Vercel
