Education

Arapahoe Community College — Lakewood, CO
Associate of Science in Computer Science — *Sep 2026 – Present*

Experience

Software Developer — Feb. 2024 – Present
iSolvRisk Inc — *Remote*

- Architected and developed a responsive business homepage for an enterprise gamified risk-management platform using React 19, TypeScript, and CSS Modules, engineering 20+ reusable components to improve maintainability and ensure consistent layouts across devices.
- Implemented route-level code splitting and dynamic bundle loading with Vite, developing a custom lazyRetry recovery mechanism to handle stale asset references and prevent cache-mismatch errors following production deployments.
- Optimized frontend asset delivery using SVGR, Sharp, and WebP compression, reducing image payload sizes by over 60%.
- Built interactive event showcases and lead-generation workflows, implementing validated contact forms, reusable stateful filtering hooks, and analytics tracking to support user engagement and inbound business inquiries.
- Developed a custom Node.js deployment utility using concurrent SFTP streams, asset diffing, and stale-file cleanup to automate production releases and reduce deployment times to under 30 seconds.
- Performed hands-on QA testing and functional verification for ongoing Gauntlet updates, catching regressions and ensuring new features are solid before they go live.
- Engineered backend functionality and PostgreSQL database integrations using Node.js to support core application workflows and reliable data access.

Assistant Culinary Manager — Aug. 2025 – Present
Bonefish Grill — *Lakewood, CO*

- Directed daily restaurant operations and cross-functional team execution while maintaining service quality and operational standards during high-volume shifts.
- Coordinated shift workflows and allocated resources across a 15+ person team to improve throughput and reduce ticket-to-table delays during peak service.
- Standardized operational procedures and quality-control workflows to maintain consistency and compliance with food safety regulations.

Assistant Kitchen Manager — Oct. 2018 – Oct. 2022
Charbar 7 — *Charlotte, NC*

- Managed daily kitchen operations, workforce scheduling, and inventory processes to reduce waste and improve resource utilization during high-volume service.

Projects

Reesa.ink – Artist Portfolio | *React, Vercel, Supabase* — June 2020 – Present

- Architected and deployed a production client portfolio and booking web application for an independent tattoo artist using Next.js 15 (App Router), TypeScript, and Tailwind CSS.
- Engineered an automated client inquiry pipeline with a Next.js server-side route handler and Resend API, processing multipart form submissions and binary reference image attachments directly into structured email notifications.
- Designed an interactive, media-rich gallery and custom lightbox modal, leveraging Next.js Image optimization and responsive grid layouts to preserve high visual fidelity while minimizing initial page load and layout shifts.
- Built accessible, fluid micro-interactions and animated UI components using Framer Motion, including collapsible FAQ accordions, scroll-aware navigation states, and dynamic entry animations.

Technical Skills

Languages: JavaScript, TypeScript, SQL, HTML, CSS
Frameworks: React, Next.js, Node.js, Tailwind CSS
Databases: PostgreSQL, Supabase
Developer Tools: Git, GitHub, Docker, Vite, Vercel
